Hartman Excellence - outdoor styles. Make the most of a better outdoor life. From the first rays of spring sunshine to the last languid days of a long, sultry summer. An old-fashioned Indian summer, stretching far into the autumn. Lounging luxuriously in your own garden, on the patio or balcony. Enjoying doing the things you like doing. Taking time for yourself. With a good book or simply daydreaming. And naturally, time for each other. Sharing your happiness with your family and friends. For all those wonderful moments, Hartman Excellence offers an extensive choice of stylish leisure furniture, weatherproof and modern classics in aluminium with webbing, all-weather woven (wicker), stainless steel and stainless steel & teak furniture.

Hartman Excellence leisure furniture is the top of the Hartman range. Hartman Excellence - outdoor styles. The following pages will put you in the mood. Shall we go?

Durable, maintenance-free and perfectly finished down to the smallest details. This is the Umberto! The Umberto dining is provided with teak armrests and available in the colours xerix-black, satin black-black and white. Combined with the stable Giorgio, an aluminium teak table, a contemporary set is created. Paolo stands for stainless steel leisure furniture in contemporary, stylish design. Its flexible and comfortable all-weather textilene back and seat increase the seating comfort. Together with the Tiepolo table 180x100 cm, with its teak top and charming leg set, it creates a perfect modern ambience.

Design, comfort and style embrace each other in the Hartman Excellence wicker collection. They are all eye catchers and a enrichment for your patio or veranda. What about the beautiful Tahiti, a lounge or dining chair with teak armrests, or the retro Bali with curved teak armrests. One by one beautiful chairs with an extraordinary level of comfort and an attractive look. Even more refreshing is the charming round shaped Cone with teak armrests. All lounge chairs can be combined with woven footstools or lounge tables and the dining chairs can be perfectly matched with wooden or wicker dining tables.

Materials

With a view to a better outdoor life, Hartman Excellence is always on the alert in order to respond to contemporary trends. The collections therefore include a wide selection of leisure furniture, not only in aluminium and stainless steel, but also in all-weather woven (wicker) or combinations like stainless steel & teak: all durable materials that will guarantee you years of comfort when enjoying your garden. Only the highest quality, innovative materials are used.

Qualitative design, ergonomically conceived

Leading international designers have cooperated closely with Hartman in the design of the models. Hartman's ergonomic principle for all its designs is convenience above all. After all, leisure furniture is designed for enjoyment. With this in mind, Hartman has designed a number of innovations for extra safety and comfort.

The back and seat of the Lorenzo, Umberto, Paolo and Luca are made from all-weather textile: a durable, flexible material that moulds itself comfortably to any body position. The solid stone tops have a subtle décor, are very stable with a relatively low specific gravity, weather-resistant and easy to clean.

The stainless steel & teak combination furniture is an outstanding combination of the characteristic look and feel of this natural material and the ultimate in ergonomic comfort. As a result, sitting on this stainless steel & teak leisure furniture is an extremely pleasant experience. The stainless steel furniture is treated for rust resistance and specially coated.

Hartman care

Hartman offers cleaners and protectors for stainless steel,

teak, stone and all-weather woven products. The cleaners protect and restores the original shine of products and the protector protects against (grease) stains on teak or stone.

Guarantee

The Hartman Excellence brand stands for reliability, comfort, design and quality. Hartman has provided a 3-year guarantee on Hartman Excellence products. A 3-year guarantee for construction and material faults applies to aluminium, all-weather woven (wicker) and stainless steel or combinations for consumer use. Another guarantee term applies to the project and catering market.
